KEYS

TABLET
STAND

Designed to be your tablet's better half

This is more than an accessory; it is a structural upgrade for your mobile setup. By integrating a sturdy, non-detachable stand directly into the keyboard's frame, we've created a unified workstation that remains stable on any surface. Its 12mm slim profile ensures that your entire "desktop" experience remains portable enough to slide into a tablet sleeve.

Stability that never leaves your side

Stop searching for makeshift stands or unreliable cases. The built-in folding stand is engineered to support the weight of modern tablets, providing a fixed, ergonomic angle that won't slip or collapse while you type. Because it is a permanent part of the keyboard, you have the confidence of a consistent, sturdy setup every time you open your bag.

The definitive keyboard for iPad and Android

While fully compatible with Windows and Mac, this hardware is optimized to unlock the full potential of iPadOS and Android tablets. It treats your tablet like the powerful computer it is, providing a physical interface that makes long-form typing and complex navigation feel natural. Pair up to three devices simultaneously to manage your tablet, phone, and laptop from one central hub.

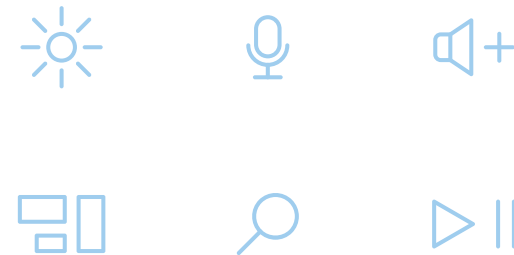

Wireless freedom for every environment

Whether you are tethered to a desktop or working remotely on a tablet, your connection remains rock-solid. Use the 2.4 GHz RF receiver for traditional PC setups, or leverage Bluetooth 5.1 to pair instantly with your mobile devices. This dual-mode approach ensures you are never locked into a single ecosystem, giving you the power to switch between hardware as fast as you switch tasks.

Efficient control at your fingertips

Speed up your tasks with a layout designed for convenience. The 13 Fn shortcut keys provide instant access to essential commands, including media playback, volume adjustment, screen brightness, and system locking. These functions eliminate the need for complex menu navigation, allowing you to manage your environment with less keystrokes.

SPECIFICATIONS

Layout: PT

Keys:

- 79
- 13 Fn shortcut functions: Decrease brightness; Increase brightness; Desktops; Search; Speech recognition; Hibernate; Previous track; Play / Pause; Next track; Mute; Reduce volume; Increase volume; Lock session

Connection:

- Wireless 2.4 GHz RF (USB Receiver)
- Bluetooth 5.1 (three independent channels, allowing pairing with three different devices)
- Operating distance: 8 m

Battery:

- 300 mAh Lithium (USB-C rechargeable)
- Working capacity: 150 hours (average)
- Charging time: 2 hours (full charge)
- Voltage: 3.7 V

- Operating current: Working: 1.69 mA ~ 2.63 mA ; Standby: 0.02 mA ~ 0.75 mA

Dimensions: 282 x 117 x 12 mm

Weight: 390 g

Compatibility:

- Windows, Mac OS, Linux (2.4 GHz RF + Bluetooth)
- iPad OS, Android (Bluetooth)

Package content: Keyboard with tablet stand; USB Receiver; 1 m USB-A > USB-C cable
